Sigur Ros-Hun Joro

One of the best songs on their first album. And heaviest songs ever, despite being on a mostly ambient album

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Some post-metal

Edit: Or according to rateyourmusic, "Atmospheric sludge metal". Which I almost thing is a better explanation to describe post-metal in

general, because it generally feels pretty sludgy to me, with mixtures of post-rock.
