Lescaaris, a progressive democratic-diarchic merchant republic in the near-future "post-post-apocalyptic" America, where society is rebuilt and new nation-states have been created while the United States government is nowhere to be found (I doubt the setting is really important and relevant though). Famous for European architecture, EDM, nightclubs, civil liberties, job opportunities, and trade fairs.

(To get a general theme-idea, Lescaarch culture is a combination of Dutch, Italian, Belgian, Monégasque, and French cultures.)

Looking at the IC flag...Eastern Europe? It gives off an aura of both the Soviet Union and the European Union in terms of flag design.

Proud **Libertarian Socialist**

Resistance is the only path to freedom under tyranny. Power to the people and down with those who would subvert their will. In the name of justice, we must fight.
