Monkey 3250 called in an airstrike and gave out the wrong coordinates. As it turns out, those coordinates pointed to *his* exact location.

Monkey 3251 was in a room with 99 other monkeys trying to type out the complete works of William Shakespeare when a terrorist plane hit the building causing it to collapse. Oddly enough, monkey 3251 was the only fatality.

Monkey 3246 rejected his monkeyhood and tried to live a civilized life in human society. Unfortunately, it was in Qing China, where they ate monkey brains.

Monkey 3243's Ban Repellent was perfectly functional. However, it turns out that no amount of spray can stop an anti-materiel rifle with the words "DOS" painted on the side.
