[*Shels-Leaving The Plains](#)

It's the only album of the band I currently own, so yes. Zu has released quite a few albums over the years, but it's not like their fascinating work can be freely found in the average music store. A certain Mike Patton also performs a guest role on *Carboniferous*, you may have heard of the guy.

Zu - *Soulympics*

I saw they released an album every year, and some years even more than one. Until now, where they haven't done one for like 4 years.

And definitely heard of Mike Patton:P

I'll probably give them a more thorough listen at some point.
