Sweet! I just got Houses of the Holy on record. It's the last album I was looking for of theirs (on vinyl that is)

I've been diggin a new album call "strick joy" by The Swell Season, but (thanks to Inchy) I think I'll put on one Houses of the Holy.

Socialism is an economic system characterised by social ownership of the means of production and co-operative management of the economy. "Social ownership" may refer to cooperative enterprises, common ownership, state ownership, citizen ownership of equity, or any combination of these. There are many varieties of socialism and there is no single definition encapsulating all of them. They differ in the type of social ownership they advocate, the degree to which they rely on markets or planning, how management is to be organised within productive institutions, and the role of the state in constructing socialism.
