I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

### Aventura - "Pueblo Por Pueblo" (Town to Town)

Band came together in the Bronx , Bronx NY in the 90's. It broke up in 2011.

Now this is dancing music. ☐

He's definitely got a bit of a different vocal singing style in this compared to the album that would of been 2 years before this one.

They definitely vary as a band so far.

Avantgarde metal... I don't even...

Avant-garde metal can be pretty weird, but it can be quite superb, as well.
