Dreamstans are like 10000 times worse than Kpop stans (and I'm not just saying that because I am a Kpop stan).

Mf literally just said "PS stan twice" in a prior post. And even then I can't blame the shock.

it actually sucks that dream stans exist. not because they're toxic (everything has a toxic side) but because the dream SMP actually had a really cool story for a while (i haven't watched it in like half a year so /shrug). like, i was actually invested in it. i thought "oh, cool, a scripted drama but in minecraft, that's super cool" but nope fuck it everything is ruined

edit: and also say what you will about his involvement in the dream SMP, but wilbur soot is actually really talented as a content creator. he's a really good musician and made a really dope ARG a while back that involved two other youtubers.

My only experience with Wilbur Soot is via the old SootHouse YouTube channel he had.

Cliche: caught something that interest you, and ended up creating a new nation even though your previous nation is still barebone. No? Just me?

☆ **MA LAI YA UNION** ☆ 马来亚 联盟 ☆

A scenario where the Chinese people took over Malaya and replaces its Malay and indigenous tribal inhabitants. Under the technocratic authoritarianism of Lee Kuan Yew and his "Kongsi government", the quasi-apartheid state had grown into a global industrial behemoth equal to Korea and Japan. Yet the specter of Maoism among poorer Chinese and extreme Islamism among Malays is ever-present...

When good beats evil, the sky's the limit.

Instead of writing some edgy nation description, let me just say this nation's concept was made in about 30 minutes and it somehow didn't end up horribly. My inactivity may kill the momentum though.

Edgy male protagonists is another one that's super common. I think that's a broader RP and author thing though - not even just a male author thing. I mean... how else do we explain all the simping for Damon Salvatore?

Eh, personally I am a fan of edgy stuff, but most screw it up by an attempt to be seen as cool, using the edge not for itself, but in a vain attempt of being the cool kid. Protip: That never works.

All these human-based galactic federations/empires on this, and dare I say, **HELLSITE**, rely too much on other alien species for things like trading minerals, military alliance, diplomacy and things copied straight from Star Wars and Mass Effect.

tbh, not everyone is a biologist or an artist. Trying to create an alien race "from scratch" without taking quite a few creative liberties (bipedal form, human-ish psychology, etc) is a daunting task tbh.

No, I mean like we sound too dependent on a bunch of aliens who are way too okay to coexist with us, and we are okay with coexisting with those aliens without a reason why they haven't come in and genocided us just yet.

Would be confusing if said alien with world-ending weapons is almost finished killing everyone and then suddenly dip mid-genocide because somehow a holographic child says he is the Catalyst.

You wouldn't understand, so I don't need to explain it.

I would describe my train of thought like trains travelling over a railroad that's got this mile long gap in between; the trains that travel over that goddamned gap in the vain hope of reaching the set of railroads on the other side instantly derail. No matter how fast those trains are going, they will never, ever be able to reach the set of railroads.
