Mingus is so god-damned great. My favorite's got to be Black Saint and Sinner Lady.

Indeed, he's freaking amazing.

I was listening to that album the other day...tough choice as to which one I like better. Though I think I'd have to go with Black Saint and Sinner Lady as well; the whole album was consistently awesome, while Mingus Ah Um, though an amazing album, had a few parts I didn't like *as much* as the rest. Unfortunately, that means I have to modify my all-time top 10 albums list again...

R.I.P.

Have all of their albums from Showbiz to 2nd Law. One of, if not THE favorite band of mine

Personally my third favorite band after Queen and Rush. Have all the albums but HAARP, Hullabaloo, and Showbiz, though I have listened through all of them. My favorite is oddly The Resistance, but it was my first Muse album, as well as the first album that really made me look into modern music (I was a bit of a classic rock supremacist, and not nearly educated enough about any of it), so I might be a bit biased. ☐

P.s. Thanks again Corrian, I still owe you one ☐

DMX – The Professional

On his 6th (actually his 3rd) album. Got one more after this one before I completely finish his discography (as far as studio albums).

They are awesomely good at what they do. Like the Duke said, there's only two kinds of music: good and bad.

DMX - What's My Name

9/10 for this album. One more left to go through (which I may do tonight).

In other news, on DMX's Last.fm page, my name comes up under Recent Top Listeners. ☐

It's not immediately visible, but yeah. If you go to an artist's page, scroll down until you see Top Listeners and click it. Scroll down a little more and it'll be there.

Listening to nothing at the moment; trying to find something that'll get me through this BS schoolwork (thanks for walking me through the process of [insert geometry drivel here] without explaining how you fucking came to the answer; *really* helpful ☐) without distracting me.

And unfortunately I got 2-3 more years of this crap. Long breaks in-between school years (due to a variety of things) has held me up from getting the credits I need...
But at least once I figure out what the hell they're saying, I actually do pretty well with the work. ☐

Well, I'm the dumb ass who is almost 20 and STILL hasn't started work towards his god damn GED, so...

But hey, I've been mostly enjoying life, so whatever...

I had plans to start when the year 2012 started. My "New Years Resolution". Was a load of bullshit because I didn't accomplish anything. This year, where I decided NOT to make dumb resolutions, I've accomplished more, even if it still doesn't involve doing the GED.
