At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

...Bah, tonight's one of those procrastination nights where I don't want to go to bed, and want to listen to more music...My dad was having the same problem...And my sister...Seems to be running in the family tonight.

Yoko Shimomura-Dearly Beloved (Kingdom Hearts Soundtrack)

Don't feel like 9 songs is the entire soundtrack, so I'm pretty sure I don't actually have the whole soundtrack on my computer. Neither did The Neverhood soundtrack, and it had 27 songs...

This was my first fighting game i ever played, given to me by my brother. Finally finished it like a year 1/2 ago. Decided I was older so I was probably less stupid at finishing "puzzles". Same deal with The Neverhood...should play that again and actually finish it.

Yeeeeaaaahhh, 9 isn't enough. There's 2 CD's that total at like....nearly 80 songs. And over 2 hours long...Soundtracks can get stupidly big
