Their people are urbanized and skyscrapers dotted their cities. Life there is rushed and busy, while business activities are rampant.

It seems that they look towards the future too(?), so not exactly a bad thing. Their people just need some needed rest I guess 🤔

An apartment reminiscent of the Soviet Union, now abandoned. Looks great though.

Or a documented case of an anomaly similar to that of the S.T.A.L.K.E.R series, that resulted in a dimensional distortion.

A vaporwave techno world, characterized by vibrant colors washing over everything and lighting up the night. The sky never gets truly dark, deepening only into a violet due to the city lights. Bridges and tunnels are neon, the river glimmers and reflects the kaleidoscope of electric life in fractured ripples, hiding a pitch darkness, an icy stillness that envelops you into the grip of death.

There are also street races and palm trees.
