Jungle Rot - *Pronounced Dead*

**CVT Temp wrote:**

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

The Weeknd - Belong To The World

I don't remember what song it was but the only reason I know this name is because apparently he(?) pretty obviously ripped off "Machine Gun" by Portishead.

Half Life 2 Soundtrack-Song 20 Submix 0

Yeah, that's this song. He asked permission to use the sample, got denied, and used it anyway. The thing is, it's the best part of the song.

It's a good song but it's got nothing on his older stuff. He's one of my favourite artists and a couple of his 2011 mixtapes are some of my all-time favourite albums but I think his subsequent explosion is gonna ruin him. His older stuff had an extremely gritty and dark sound and that was mostly thanks to the producers he started off with, whom he doesn't work with anymore. Alone, he's probably gonna fall into the typical r&b-lovey-dovey boy. Add that to the fact that he's exposed himself as a completely prick. I'm expecting to be disappointed by his new album (but I still hold out hope).

Yeah, pissing off Portishead is not a great way to help your career. I mean, I'm pretty sure I heard they are pretty annoyed bit it. Along with some of his own fans and Portishead fans.
