Monkey 679 moved to Çanakkale, but was beaten to death for wearing a shirt that vaguely resembled the Armenian flag. He was promptly tossed into the Dardanelles and sunk to the bottom of the straight, never to be seen again.

Monkey 672 was found dead in his apartment, dying of carbon monoxide poisoning.

Meanwhile Monkey 660 connects all the monkey deaths and begins trying to stop his own death from happening, safe proffing every inch of his house.

Corrupt Dictatorship

The Monkey Time War had slowed to a halt. Battles were no longer being waged and both sides seemed to be in agreement that the war had to end, as several monkeys needed to be killed and Monkey 668 died twice. An agreement was arranged on the Moon, and several Monkey Time Police diplomats went to the Moon Base to discuss the treaty, but no Spacetime Empire diplomats were there. The diplomats contacted their leader Monkey 404, but they weren't found, and the diplomats began to panic. Back on Earth, monkeys looked to the sky as Mars fired a laser hitting the moon, killing everyone on the planet. Sure, the meteors and tidal shifts will cause more deaths, but in the initial explosion 20 monkeys died. We are now on monkey 647.

Tired of having to say this: The Kingdom of Voidstania is not a kingdom. It is a communist dictatorship with a weak democratic senate under the guise of a monarchy. Normal country stuff.
