Paul McCartney - No More Lonely Nights

Male, 23, Indonesian

Major partner in free association with [Faraby](#) (that's my puppet/secondary nation IRL).

[Factbook](#)

Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given than to explore the power they have to change it. Impossible is not a fact. It's an opinion. Impossible is not a declaration. It's a dare. Impossible is potential. Impossible is temporary. Impossible is nothing.

CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Same, and quite honestly I don't *want* to be one of those super happy people, because a lot of the time they're obnoxious about it. I just want peace of mind, a peaceful environment; I value that much more than being this super happy person thinking about rainbows and gumdrops all day. □

There's some super happy people though that come off as super cute because of being like that, though...

Well, maybe not super happy, but happy in a way that they come off as cute...

Like my 10-year old super friendly hyper cheery girl RP character, but that's a different kind of cute to what I was thinking □

But yeah, I agree with you, and pretty much what I want as well.
