No. The censorship is bringing up so many red flags that I could open a red flag store and put me and my grandchildren through collage.

This place might seem cool to live in, as there are many planets with residents in the billions, and the Kobold species are quite interesting.

Eh, sure. You seem to have a good thing going

I'd say this nation is about 85-90% representative to my beliefs

About the only difference between my nation and beliefs is that free markets are effective in a select few situations, and the compulsory organ harvesting is kind of screwed up

I'm probably in the minority, but I actually pay more attention to in game stats than to roleplay

Absolutely. This place seems to be the perfect place to live in, with its progressive views on many things, especially in regards to schooling. The Bill of Rights is definitely another good feature to get me to live here.
