A man buys a pocket knife.

Colossal modern island nation in the North Atlantic. Ruled by a compassionate yet slightly-unhinged king, with a very isolationist yet empathetic populace. Notable characteristics: terrifyingly mighty air force and navy, world famous cars, legendary blend of wildlife.

Flag created by the legendary Almonaster Nuevo.

NS stats are canon except for population; factbook started. Some things are my RL views, some things are not. If curious, feel free to telegram.

Mans balloon pops, making fall from the top of the atmosphere, going faster than the speed of sound and then he hits the ground into concrete full of spikes, so he is essentially vaporized,

Bacteria escapes the prison through sliding out of his prison cell, and going outside of the exit door without the acknowledgement of the warden, because he is very smol.
