No no, it's actually a very clever and smart idea. Actually i can see those two worlds blend good with each other with a premise of a gangster life in GTA with a post apocalyptic Fallout... A lot of room for imagination and worldbuilding

Tsujihara government is not likely to survive the coming July 10 elections in Japan.

I mean, there are other better political parties in Japan, but the Constitutional Democratic Party's social liberalism is a bit based, although too moderate. Is the current leading plurality for the election right-wing or left-wing?
