A really boring banner detailing the Latin-esque type of architecture that plagues their cities, when such artistic masterpieces should be restricted to the canvas of a gone but not forgotten time.

so yeah boring

They are a prosperous nation. Seem to like boulevards

2289 A.D.

In the early 21st century Siberia was struck by a massive asteroid that brought untold devastation and the collapse of almost every government. An alien virus, capable of mutating its victims, was brought to Earth as well. Eastern Europe, Siberia, China and countless other regions fell to the mutant horde. Europe became a medieval landscape ruled by feudal lords. The Middle East unified into a single Sultanate over time and entered a golden age wherein they have learned to co-exist with mutants. The Americas, which have lost contact with the old world, have turned into a Mad Max hellhole.

The time has come to make yet another nation. You'll probably recognize me.

They luv cartoon

I am a Cuba where Fidel was overthrown. I exist in MT. American tourism and big business is welcomed.

I am right wing and pro market.

My storefronts:

1) One stop shop for all your shady dealings

2) Buy chemical weapons and other arms prohibited by the Geneva conventions here

3) Unethical experiments help for people who put science before personal liberty
