Man gets tragically mauled by a murderous gang of orphans, proving that karma does not exist. In the end, his good deeds meant nothing.

Tsar Man Nicolas declares war on the now-superpower India, which has recently passed Russia and became the third strongest country on Earth due to funding from Amazon and Fishcorp. He then tries to use Tsar Bomba on India.

Man curls up into the fetal position and cries, using the 20 dollar bill as a tissue. The joy he once had is now gone.

man dissolves the union and declares combined circusses of america.
he also renames the states.
this creates massive wave of protests and declarations of independence by the states, creating following states:
- confederate states of america (trumps america)
- the pacific union
- the lone star empire
- republic of new england
- united front of america (the congress)
the area still controlled by washington government falls into chaos

Taiwan is a country, Tiananmen protests DID happen, and the Chinese government is a dictatorship. Deal with it.

India supports the United Front of America while Pakistan supports the Lone Star Empire, causing even more violence and war. Man flees to Greenland and makes sure to pack accordingly so he doesn't freeze.
