Alex then joins Mina Sezlet and her students in a crusade against Finneganism. They win for the time being, causing 65 people to renounce Finneganism, and they found a computer assembly company.

But "regular kool-aid" isn't Kool-aid™ but rather a high dose CIA grade LSD administrating mind altering secret project left over from the 1950s which was revived by [redacted] in 2020.

Everyone who drinks it jumps out of a window in a high rise.

\ Senor Finekgaen is the son of finegann, as such he proclaims himself as the literal new Jesus and begins preaching his neo-finneganism across the world, it is classified as a cult.

Little did Man know, Mina was also looking for Alex. They meet up a few km from the lab entrance.

Mina: "Are you the one who caused all Finneganians to disappear?"

Alex: "No, that was Man. I may be part of his agency but his policies and thoughts are absolutely ridiculous."

Mina: "We will never succumb to Man's arbitrary rule. Do you have any particular suggestions for the lab?"

Alex: "Not at the moment. With some of your students we could probably invent more options for this."

Mina: "Finneganism is insane, but so is its exact opposite."

Mina sets up several weaponized furnaces around the entrance to her lab, and her students are on guard for Agency intruders.

The middle rooms of her lab can be rearranged in many different ways, to create a complicated maze-like structure that is very difficult to traverse through. And even if someone makes it past, they have to contend with Mina herself, as she has a teleportation device.
