Oh, definitely a 10/10 with that type of flag, maybe even 100/10 if they support Ascended Stalin.

This nation is not communist, it is a traditionalist, expansionist, theocratic
empire. Calling this nation communist is an insult to the Great Khan.

0/10, looks like an average Centrist Democracy Flag TBH.

Partially inspired by the Third Odyssey mod for EU4, this nation is essentially a Byzantine successor state in South America that has fused together Ancient Greek Religion with Greek Orthodox Christianity. It mixes the aesthetic of Byzantium and Ancient Greece, with very open and liberal social values but with an Imperial Monarchy. NS stats are referenced but are not strictly followed to a T.

10/10.

Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...
- Not an 1-1 exact replica of **Bioshock** lore and **Rapture City**. Only the city's atmosphere and setting is maintained.
