Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given than to explore the power they have to change it. Impossible is not a fact. It's an opinion. Impossible is not a declaration. It's a dare. Impossible is potential. Impossible is temporary. Impossible is nothing.

One of my favourite songs. Never ceases to pick my mood up on the rare occasion I hear it in the wild.

A classic. □

Right now I don't have any music on, but the song playing in my head is "Love Bites" (1987) by Def Leppard, off their fourth album *Hysteria*. It was their only #1 hit on the Billboard Hot 100, though while a decent song, I think there are others of theirs more deserving of that title, including "Photograph" (1983) and "Hysteria" (1987).
