Tired of having to say this: The Kingdom of Voidstania is not a kingdom. It is a communist dictatorship with a weak democratic senate under the guise of a monarchy. Normal country stuff.

Also, NS stats and policies are not canon (Because I have a tendency to click the wrong options and give myself dumb policies)

There are no political parties or elections. Technically, we're sort of more democratic in the old term, but then that body chosen by sortition is powerless compared to the Crown/aristocrats/economic planners. Philosophers of old noted that democracies have a short life span, and are too riven with division to unite against a common foe.
