Massive Attack-Mezzanine

Gonna rate it an 8. Also up'd Fever Ray from 8 to an 8.3. I rated Iamamiwhoami's Bounty an 8.5 and I'm having a hard time having it be more good than Fever Ray's album

I had this dilemma earlier.

It was mainly a conflict of whether I should rate based on what was actually better vs. what I actually enjoy listening to. For example, I gave Lorde's *Pure Heroine* a 7.4, but Justin Bieber's *Journals* a 7.6... Feeling greatly disturbed by this, I decided to rate based on enjoyability, and I enjoy Journals more than Pure Heroine (good god what's happened to me...) even though I think Pure Heroine was better musically ...

I've been rating music like that since forever. Why should I give high score for something musically skilled that sounds bad. I rather give high scores for something less "skilled" but more enjoyable.

Current year: 5001

Magic: Non-negotiable

Ponies: Yes, occasionally

Tech levels incompatible? Then kick me out of the thread, because if you RP with me you accept my tech.

Note: Before 2480, Olwe was called Athan. If you see this word in a thread, it's because you mentioned a year incompatible with Olwe in that thread but still made it open to all techs and therefore are allowing Athan's magic.

One of top 3 Rainbow songs, imo ofc. After this I'll start Led Zeppelin marathon, I've been about to check them anyways and 5 of their albums are on 1001 Albums You Must Hear Before You Die, a list I'm about to go through as well.

Led Zeppelin - Babe I'm Gonna Leave You

I'm not expecting wonders or huge eargasms with this marathon... mostly because I don't really like Plant's voice.

This is another band with "Iron Maiden syndrome" for me. Good songs but terrible vocalist dragging the points down.
