4,568 to 4,570 all three went into California wearing their MAGA hats and 2nd Amendment shirts. Needless to say they are immediately lynched by the onlookers for hurting their politically correct opinions.

That's 4565, 4564, and 4563. The list goes down, not up.

4562 thought the Darwin Award was an actual award, and did his best to achieve it.

Monkey 4561 was executed for not only playing one-two-skip-a-few in a linear counting forum game, but being immensely unfunny while they did so.

People tend to assume that Entrance of the Gladiators by Julius Fučík is what that ever so famous circus clown theme is. And in a way, it is. Nobody would ever argue with you on this fact.

However, if you want to be an unlikable, pedantic jerk, the song actually known to be circus music would be a version composed for American woodwind bands (and later transcribed for fairground organs) titled Thunder and Blazes, published by Louis-Philippe Laurendeau.

Monkey 4560 was burned alive in a textile factory fire, and its ashes were placed in one random pepper shaker somewhere in the world. It might be yours.

Monkey 4548 tried stealing from a male Dragons hoard. The Dragon spat it's "dragon fire" which caused the Monkey's blood to boil, fur to fall off, skin to blister... basically the monkey felt like they were on fire and could do nothing to stop it.

That monkey died a slow extremely agonizing painful death and ended up as lunch afterwards.

4547 was the Dragonborn, he was killed by Alduin in Helgen. Alduin was killed by a random Whiterun guard, but he took an arrow to the knee.

## Covid-19 Update

The most recent test of a Covid-19 vaccine has been unsuccessful after one of the test animals, a macaque only known as 4546, died of complications relating to the disease. German immunologists however have found the animal's blood contains important proteins that may help to accelerate testing.
