I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Oh, that's nice to know... it seems that italicizing and capitalizing letters, followed up by a quad post works well to create a attention.

Who would have ever thought? ☐

Immolation - "Furthest from the Truth"

Death Metal from the album "Close to a World Below" (2000)

Testament - True American Hate

*Some choose to celebrate
Some choose to hate
Some choose to live their life
Through someone else's pain*

*All those who follow
All those with faith
Show us your colors, American hate*

Pantera - Daughters of the Queen

*Daughters of the Queen
Come outside and play
Slip into the nighttime
Before it slips away*

*Daughters of the Queen
Come let me hold your hand*

Isn't it about time
You need to feel a man
