Ellis decides to go and rescue the Man Family in Guantanamo. But she needs allies.

It turns out Coach is a codename for Mina Sezlet, who has just returned from the other universe after Aila obliterated [Ashotu user] and the associated virus. Now that the virus is gone, Aila is back to her normal self and they return to governing their nation.

Nick is one of Mina's best officers, and the most likely one to succeed her in elections 9 months from now.

With Ellis now among their ranks, they declare war on Guantanamo Bay.

You forgot to mention Ellis in that post.

Mina Sezlet: "Let's try to keep this Man around for as long as possible."

Meanwhile, Finnegan is still around and sends a spy to shoot Man. The spy succeeds, and then gets shot himself by Mina. This means another declaration of war from Mina's nation.

New man.

Man tampers with a self-destruct button on his computer, which explodes and kills him.

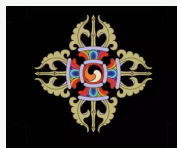

New man decides to participate in Mina's campaign, which so far is a decisive victory for her army, having cleared out and secured control of a major river valley to 4km away from the capital.

The Guantanamo Bay attack also continues under Aila's command, and a guard mech awakens:
