Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...
- Not an 1-1 exact replica of **Bioshock** lore and **Rapture City**. Only the city's atmosphere and setting is maintained.

Jebslund is a nation of kerbals ruled by Emperor Jebediah Kerman. We reject tyranny, believing that rights should be protected, though we also believe said rights end where the rights of others begin. Shockingly, we \*do\* use NS stats, with the exception of lifespan.
