Since her ascension to power, Ari has steadily managed to increase the political influence the Caller holds in KG, as her military prowess has turned her into a very powerful woman. Tribesmen and clan members often go to her to seek advice and policy. This has come as quite a bummer for the Council of KG, whose traditional role is one of wise elders - their role, now, becoming less and less influential as the Caller takes on more power.

Thank god that Byzantium was only referring to the party's color not the party name and policies, almost thought that you had Byzantine larpers in your nation's International Assembly. Also, I am quite sure that a certain confederate somewhere will have an anyerum with the term 'revolutionised' being utilized more than once in your overview and the mere idea of continent spanning government.

Of the International Assembly's 3k seats, many of which are comprised of several leftist parties, the odd one out is Ithopoios Nomnerealo's Nowhere Party, a body that espouses radical "political nihilism" and is registered as a single tiny black dot. Funnily enough, we thought the blip was @Kotera.

Ninja: They "disappear" political radicals whom espouse views against faunus at home and abroad, be them card-carrying ideologues or social media influencers and enablers...all on the basis that their discourse is a threat to their security.

It's not necessarily *not* Wuchu, since Wuchu means Nowhere and Leskya's about 400 years after Kotera's time. So it's fully likely this fella's just Kotera's great-great-grandkid or something.

I just realized how much of a nerd I am.

I also learned that Las Palmeras has incredibly good taste in references, since the Creator's factbook has a reference to H. G. Wells' *The Island of Dr. Moreau*. Well, he is a reference to *Island*. Which is a good thing- I loved that book.

Ari has argued for increasing hostility to the Ghesites' neighbors in her time as Caller, arguing that they need to be dealt with before they swallow the nation whole.

The Jamesian Republic is an allegory for the United States of America. It has 48 states like the USA did from 1912-1959 and the Stars and Stripes mean the same thing like they do in Real Life.

The last Coronavirus patients in Stenope are being released. The P

Rome proper has survived into the 7th Century AD. However, the city itself had fallen into disuse, and there was no second Horatius to defend it from the barbarians that time and again assailed its gates. Nonetheless, the Empire endured thanks to what seems to be Valentinian's rule. Presumably, it declined

I learned that their an ancient Christian nation set in 637 AD and IIRC subservient to the Roman Empire. I am rather surprised there isn't many Roman nations here in F7. You would think it'll be quite popular, but apparently not.

Ah ninja'd, just wait a minute folks...

AN: A ancient nation of untamed, courageous, and supposedly honourable mounted warriors led by a fearless prodigy who is currently attempting to outride history. It seems that deep in their hearts they know it is hopeless and yet continues to carry on the struggle anyhow.

BN note: Oi, don't just lazily cite the mobile viewer warning. Actually read and brainstorm.

I'll be honest, I'm having a hard time actually understanding AN as their factbooks seem more like short stories than an actual description of their nation (if they even are a nation). What I have been able to extrapolate is that they have a capital city that is heavily stratified - larger than any other city on Earth. In order to protect the people from the monsters of Grimm, the citizens are protected by a 50 meter tall concrete wall ala Attack on Titan.

It's basically East + South East Asia under socialist rule. People there seem rather happy even though they have like, no liberty on private matters or anything. They must be living in the hivemind or something.

*This is cult of personality, the day that you will be free is the day you'll never see,
What you do is my will what I want you all to be, my obedient tools in the hands of me.*

*Live inside my world no wrong or no right, only me and me alone
whose statue burns bright,
I tell you what to do and I want you to fight, disobey MY words and you FACE MY MIGHT.*

As a general rule of law, if you see a territory in Pan-Asia have the prefix "New" behind it, it was probably victim of a major nuclear strike. And to make this worse, "new" is used in nearly all informal names, though only Indonesia takes its "New" theme to a legal degree

The Foroned Party of Gilan, the anti-socialist opposition that favors Gilakish nationalism takes up 15 seats of their legislature, which compromises about 10% of their seats. The other non-leftist party is the liberal Free Gilakish Party that has even fewer seats, just 4.

Although blades are weapons used by Ghesites during combat, their cultural significance is much more than mere battle equipment. The style and utility of a knife has social status attached to it, and knives are used in pretty much every role within Ghesite society. The scarcity of bronze within the nomadic society grants it almost a luxurious status - explaining why Ari has a weird fetish for them; as the Caller, she is increasingly more considered to be the paramount leader of the Ghesites.
