Monkey 994 was flying a propeller plane whereupon he had a mid-air collision with Monkey 995.

There were no open casket funerals.

Welcome to Aerlanica! the resident punching bag of the entire universe! God forsakes us, Hell hates us, Tech is stolen by us, fascists fear us and NS stats are ignored by us. Come for the democracy! Stay for the Fanaticism!

Monkey 993, in an effort to snap pictures of the remains, fell into their graves.

He was buried with them.

Monkey 992 hit his own foot with his shovel and fell into the same coffin as 993 while he was burying them.

The next monkey called buried him as well

Monkey 991 was a coffin inspector in charge of maintaining the safety of coffins and occasionally burying unfortunate monkeys at the funeral home that hosted the funeral resulting in the last several deaths. Accused of not doing his job, he decided to prove his point by opening a coffin and proving its safety. He did not realize that an anti-monkey death ray was inside, rigged to fire the moment the coffin was opened. He was vaporized instantly.

Monkey 990 worked at the funeral home and noticed that the coffin had been opened. While putting the lid back on, he scratched his thumb on the screwdriver and got blood poisoning and died.

Monkey 881 set up a one-sided destiny bond with Monkey 880, if monkey 881 dies, so does monkey 880, but it does not happen the other way around.

BN can now choose to kill monkey 881 to also kill monkey 880, or kill monkey 880 and leave monkey 881 alone.

I do not exist, stop pretending I'm real. Accept that I am a mere illusion created by some random internet loser trying to trick you.

Monkey 881 thought it was a good idea to stand in the middle of a railway track. It wasn't, so he died by being run over by a train. Monkey 880 died as well

The next monkey is Monkey 879.
