Gorillaz-Feel Good Inc

Talk about stuff I haven't heard in years.

Gorillaz-El Manana

Multitasking for the win. Listening to music, while RPing with a friend, and going through a bunch of junk in my room and getting rid of a ton of stuff.

*Battles - Atlas*

Great Math Rock album.

As much as I go through other math rock bands, that one still stands out as probably my favorite math rock album ever. I want to own that album.

Loved that album many, many years ago, and listened to it on a regular basis.

For some reason, even though I like quite a bit of math rock, I can never like them to the level of really wanting to own them: Except that one.

Gorillaz-Latin Simone (Que Pasa Contigo)

Mirrored is great, but Spiderland is my favorite math rock album, as soon as Breadcrumb Trail starts I'm sold.

I thought Spiderland was post-rock...I didn't really listen to it, though. Didn't really get into it enough. But I need to give it another and more thorough listen anyway.
