June In December - *Ode To The Corntendon Dwellers*

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Lana Del Rey - *Starry Eyed*

Album: (Unreleased)

Year: 2015

Genre: Pop

<https://www.youtube.com/watch?v=IFo5SIr4qiQ>

“

Oh, boy you're starry eyed

Lay back, baby lay back

You've got heaven in your eyes

I like that, boy I like that

Life doesn't always work out

Like you planned it

They say make lemonade out of lemons

But I try and I just can't understand it

All this trying for no good reason

Man makes plans and God laughs

Why do I even bother to ask?

Well, once you and I, we were the king and queen of this town

It doesn't matter now

The sun set on our love, bye baby

I would've preferred this version if the vocals were better.
