A land where humanity is king, above god and devil alike. A blissful Utopia for Humanity, a horrible Dystopia for sentient robots.

Robots shouldn't have rights or citizenship;
Compromise on other non-human sapient entities is possible, with limitations, but not on these buckets of bolts. They should serve humanity and have absolutely no place in society other than as our servants. Think of the benefits of this. Simoniaball is now Minister of Foreign Affairs for a good reason

Neglecting to tell us the exact reason, eh? Simonia's on the track of becoming a 1984-esque dictatorship, methinks.

U.S.S. UNITED STATES (CVA-58)
"GONE, BUT NOT FORGOTTEN"

□ □ □ □ □

Intended as the first of a new class of "supercarriers" for the United States Navy under the administration of President Harry S. Truman. Her design was notorious for lacking an island superstructure and its unconventional deck layout, which would not be seen in the succeeding Forrestal-class.

In 1949, only five days after United States' keel was laid down, she was cancelled by Secretary of Defense Louis A. Johnson as part of a campaign to cut down the naval budget and advance the development of airborne nuclear deterrence via long-range bombers.

f I CTE or stop posting, I will always come back. (Even if i'm dead)

Hooray! Wait, hold on...you're coming back when you're dead? Are you planning to pass this nation on to your children when you die like I am right now? Because I know if I go for more than 5 years while I'm still alive, I have a 99.9999% chance of not coming back, explaining why I wish for a funeral at that point of time.
