Man, those guys get a bad rap they don't deserve, IMO.

Genesis is pretty well thought of you know...

Forcefield, Lightning Bolt.

I generally always hear to them getting referred to as basically either a ridiculously over-pompous prog rock band that isn't worth taking seriously, or a vapid and sellout pop band that isn't worth taking seriously, depending on the era. They are undoubtedly popular, it just seems like they aren't very "accepted" in rock culture, especially the Collins era.
