To be honest; I've never heard of Eurovision until this year when it just ended. Funnily enough, I learnt about its existence through a countryballs meme.

NSGP? I assume that GP means gameplay?

Tbh NS Sports is full of those and FIFA clones.

Like, sure, there's other sports but those somehow don't exist on NS (or there's so few other sports threads that get fucking buried by copies of [x]VISION and [futbol] threads.)

I genuinely do not get NS Sports.

Like do they actually roleplay the matches or whatever or just use some tool to generate scores?

In a nutshell, scores are generated via RNG and participants RP how the match reached that final score. It's functionally identical to a predetermined narrative character/war RP or your usual professional wrestling match.

Sounds pretty cool. I wish that for stuff like chess RPs nations would actually play each other instead of using RNG.

The "everything is perfect" EU-style centre-left liberal MT democracies where nothing goes wrong, all cultures and religions live in peace and harmony, they've got a fantastic environment, stellar public services, taxpayer funded healthcare, perfect relationships with the rest of the world, a fair and honest electoral cycle (where no right-of-centre party ever wins) - all with less than 30% taxation.

I'm not annoyed at them because of their political leanings, or because they're MT democracies, but because they're so boring.

I totally agree with that.

That's why all of the nations I've made have some sort of fucked up or batshit insanity going on.

Like Thermodolia, where the healthcare system is a convoluted mess, the government isn't friendly towards non Thermodolians, there's more than a few separatist movements, taxation is high, and the rest of the world either hates us or loves us there's no in between.

I also made it into Thermodolia's lore that the Thermodolian government effectively waged cultural genocide for roughly 300 years only stopping in the 1950s

Personally I've been seeing less and less of those nations on F7 that I now find them more interesting compared to all the other nations that are just: irl nation (usually the US) with no other info, edgy dictatorship, multiverse-spanning star-empire, and the classic excuse to post an oc.

Speaking of, why are so many 'nations' here just one person or a small cast of characters. Like no hate, people can RP how they want. It's just that there are a million places for character rp's, why go to the site aimed at pretending to be countries?

No, no, it's RPing characters *from* your fictional country, with their distinct way of life and mannerisms that can only be fully explained here.
