If its by accident, then fines amounting to damage caused, or at least as much as the person responsible can repay. If intentional or if they do not have enough to pay back the damages caused, then for non-intentional simulated CyberSpace Prison and for intentional simulated torture, with possibility of reality based torture and/or death.

Robots shouldn't have rights or citizenship;
Compromise on other non-human sapient entities is possible, with limitations, but not on these buckets of bolts. They should serve humanity and have absolutely no place in society other than as our servants. Think of the benefits of this. Plus, they would almost certainly overtake humanity if we gave them the chance, whether out of pure advanced abilities or malice, or worse, both. Think of humanity.
