The album, 'The Earth is Not a Cold Dead Place' by Explosions in the Sky. I have no idea what actual track I'm on. It just blurs together into a stream of awesome.

It smells suspiciously like you're listening to the album. That's good, mind.

I just DL'd it, so I wanted to make sure the tracks were good quality.

incredible music, a mix of cinematic soundtrack-ish music and operatic music, but they make use of awesome rock drum rhythms, synthesizers, and metal guitars. I strongly recommend the songs "Pompeii" and "Nara." Oh, and every song on their first album is named after an ancient city, How awesome is *that*. And spread the word- they are relatively unknown, but they are amazing nonetheless. After I got their songs on my iPod, I felt kind of guilty for listening to only their songs and none of the songs I had before. Without further ado, Google them and check out some songs- they are truly amazing. Here, have a link- <http://www.youtube.com/watch?v=8AEU5pBxY6E> and <http://www.youtube.com/watch?v=GusLypfx7OQ&feature=related>
