Are there any like, "Discuss Awesome Nature Locations" threads on NationStates?

I don't even have a "genre" ☐

I guess I kind of do, seeing as I've listened to a freaking ton of Post-Rock. I have a playlist with over 700 Post-Rock songs in it, and depending the album size, I only post 4 songs from 1 album into it. Obviously the kind of post-rock in there varies a lot and some of it might not even be the type of post-rock I'll listen to that much but it is still good. There are a lot of bands I enjoy but I'd probably never actually buy their albums, because I have albums I really enjoy that are bigger priority to buy and support.

o.O That's a lot of Post-Rock. I doubt I have 700 songs total in any one genre. I shift a lot between sub-genres.

Yeah, I went a little crazy. I don't even want to know what the totals would be in songs without me separating the best songs of the albums onto a playlist.

I wish Spotify still showed how long the playlists are....instead of making it better they made it worse by removing it altogether. I want to know if my playlist is like 2 days long or something dammit!

I have something like 4,000 favorites on YouTube that are all music.

I've been adding a ton of stuff to specific playlists so I can share like playlists for people to go through and find music they like and such, and just for my own personal benefit. I'll get even more specific, like

Sludge Metal playlist and whatnot after I get my "Metal Playlist" up more. I need at least 100 songs in every type of playlist I have so far

Well, except maybe hip-hop, because I don't think I'll find enough hip-hop I like right now. If more of that instrumental hip-hop was on here, maybe....

I've been slowly and lazily working on organizing a list. But I should break it down into specific genre lists and make lists of my highest rated songs in each genre so I could share it with people interested in such things.

This song again because I can't get enough of it. I wonder why it's spelled 'Ov'.

Behemoth always spells it as ov. I do love how it looks, so I'm not complaining. ☐ I'm only curious.

You should launch an investigation into it. If you choose to do so, I'll find out why Behemoth always spells 'of' as 'ov'. It sounds nicer, is my guess. ☐
