Any and all Porcupine Tree songs, Blackfield, and No-man songs, basically, Steven Wilson(He's in them all).
Oh, and an interesting band from Scotland called Finding Albert. Bad name, though the music is better than the name. It reminds me somewhat of Muse.
The best one I've heard from FA, is called Back to Rome.
Also, I've downloaded various songs from the Game of Thrones and

put them on my phone. This also includes fanmade versions of the theme.

Yoko Kanno's band, the Seatbelts, did the OST for Cowboy Bebop.

Waltz For Zizizizii, The Real Folk Blues and Call me, Call Me are clearly the best tracks.

Father Midnight, Earth.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.
