I legit need NS to support more emoji (and Windows 10 to add support for national flag emoji) so I can put the goddamn boricua flag in my OOC factbook.

Then I'd need a fuck-off huge bottle of Tylenol to deal with the idiots who think it's the flag of Cuba.

I don't have an OOC factbook because if it isn't completely obvious already, SI, Initiative included, completely and with infallible accuracy portrays my OOC beliefs which I wholly support and act on in full in the real world regardless of inconformity to acceptable social behavior, national law, and known physics. I fully support the infinite perpetuation of the intrinsic human war machine and will continuously spur-on the Meat Grinder until it consumes reality entirely 🤖
