Also yes, it is both. The BTS part is a joke, but what they are doing is legit
serious, I just chose the name to be funny, but it just turned into a matter of
international security. Most of the national headlines, though, are meant to be
Florida man funny, but the ICBM one is related to the first international
headline.

In the west, lies the Pantocrate - a totalitarian empire led by mystics hellbent on creating a superhuman race...

this is not where the fun begins!

The Sith Empire is a force of dominance, an authoritarian state forged from militarism, slavery and the dark side of the Force. United under a single Empress, her Dark Council and by the Empire's Wrath, ruled by the Force-sensitive members of the Sith Order and supported by countless loyal citizens, the Empire forsakes the freedoms offered by the Republic in favor of strength and order. Aiming to take revenge on the Republic for its exile centuries ago, the Sith Empire will stop at nothing to become the greatest power in the galaxy.
