Monkey 419 wasn't even certain it was his turn to die yet, but decided to text and drive just in case. It ended about as well as you would expect a monkey texting and driving to end.

Just your average modernized Apache-Viking-Samurai-Mongol with robotic birds and big guns

monkey #6969 was sodomized by monkey #223 with a banana

by **Ghiandara** » Mon Nov 01, 2021 6:01 pm

While on the walk to the local Monkey Fresh Market, a gang of evil hairy monkeys decided to rush one loaner.

"It was lucky to escape with its life" Said Dr. Gunde, Lead Researcher at Ghiandara Local Science School.

"I'll have to fire the intern who decided a 200 Pound baboon belonged with the other monkeys"

The monkey/s family is currently pressing charges, but the court has been halted by unexpected poaching for winter fur by the Gay Poachers Association

Once again, 414 went back and killed every monkey that had survived. Stop skipping monkeys!

414 then shot himself because it was a part of the grand plan.

Monkey 413 went in too deep. He saw things, the deaths of all of his fellow monkeys, and he went further. He learned why they were all dying, but Monkey 414 killed him before he could tell the world.

Monkey 412 didn't realize the bunch of bananas it had just grabbed happened to be the home of a banana spider.

Until too late.

Godulan Puppet #2, RPing as technologically advanced tribal society founded by mongols and vikings (and later with multiple other Asian and Native American cultures) motivated by an intrinsic devotion to the spirit of competition. They'll walk softly, talk softly, and make soothing noises as they stab you in the back and take your stuff... unless you're another Caleshan, whereupon they'll only stab you in the back *figuratively*!

Used NS stats: Population. That's it. Anything else not stated in the factbooks is not used.

Monkey 411 had his home invaded and he tried to call 911, except he kept dialing 411 which apparently leads to phone repair services. Infuriated by repeated failures brought about by dialing the same number, Monkey 411 screamed like a raving madmonke until the invaders discovered him and promptly ended his suffering.

Monkey 408 slept on a Fatatatutian beach and was eaten by crabs. He must have been a very heavy sleeper. Light sleepers are hardly ever eaten completely before they wake up.

Monkey 407 was experimenting with radioactive materials, a block of titanium slipped from his hand and landed in just the perfect way for the radiation to be directed at his brain, he died soon thereafter.

Other countries: "We need to protect and shield the frail minds and bodies of children, think of the children!"

Andronya: "We must raise a generation of Chads that are independent, strong and capable of facing the world head-on."

Monkey 406 was hit by the titanium block dropped by Monkey 407, and was completely fine. A micrometeorite then punctured a hole in the ceiling and Monkey 406's brain, killing him instantly.
