Lorde-Tennis Court

I don't know what I want to listen to so I'm just listening to random stuff.

Blasting metal or stuff like that while my grandparents are here feels weird.

Especially at night, but yeah.

Drone/doom metal works fine while they're here ☐

Call of Duty: Black Ops 2 Soundtrack-Trent Reznor-Theme from Call of Duty: Black Ops 2

Going through the two soundtracks I have left to go through...that are both 2 1/2 hours long. This will be fun.

In The Nursery - *Aftermath*

“ CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Sonne Adam - *Shine*

For example, we can always create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

### **Aborted - Coronary Reconstruction**

**Against:** Everything

Sonne Adam - *Apocalypse*

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
