This is the song that doesn't end
Yes, it goes on and on my friend
Some people started singing it, not knowing what it was
And they'll continue singing it forever just because

'Cause it's easy once you know how it's done,
You can't stop now, it's already begun.
You feel it running through your bones,
Then you jerk it out.

Sir we need more issues, Don't break my new chain

Trossikada, Land of the Trossi

A fairly large tribal nation which hasn't been welcoming to outsiders, until recently. Tech level: Modern Tech.

NS stats aren't canon. Neither is my current flag (It's a Ukraine variation of the [canon one](#)).

I come from a land down under,
Where beer does flow and men chunder.
Can you hear, can you hear the thunder?
You better run, you better take cover.
Yeahhh...

Free will is a myth. Religion is a joke. We are all pawns, controlled by something greater: Memes. The DNA of the soul. They shape our will. They are the culture. They are everything we pass on.

After a long period of order, e.g. "Hello. My name is Inigo Montoya. You killed my father. Prepare to die", it only takes one slight deviance from the original text, e.g. "Greetings, fellow human. My name is Indigo Montana, and you are my father's killer. Prepare to cry.", for the chain to fall into a state of anarchy. From here, someone eventually sees a reply that is funny which they would like to repeat, and thus, order is restored, for however brief a period, and the cycle then restarts.

A **chain** is a serial assembly of connected pieces, called links, typically made of metal, with an overall character similar to that of a rope in that it is flexible and curved in compression but linear, rigid, and load-bearing in tension. A chain may consist of two or more links. Chains can be classified by their design, which can be dictated by their use.

The Industrial Revolution and its consequences have been a disaster for the human race. They have greatly increased the life-expectancy of those of us who live in "advanced" countries, but they have destabilized society, have made life unfulfilling, have subjected human beings to indignities, have led to widespread psychological suffering (in the Third World to physical suffering as

well) and have inflicted severe damage on the natural world. The continued development of technology will worsen the situation. It will certainly subject human beings to greater indignities and inflict greater damage on the natural world, it will probably lead to greater social disruption and psychological suffering, and it may lead to increased physical suffering even in “advanced” countries.
