Well now. It seems we have returned to the era of German (or at the very least, suspiciously pseudo-German) monarchs. Although this one does not appear to, himself, have started a war of catastrophic proportions. In that, at least, he is largely blameless - though perhaps he should consider working on his temper with regards to matters of national security. The question of war aside, he is rather polarizing. Opposed to socialism, yet a proponent of an extensive welfare net - perhaps granting his own policymaking a tinge of that which he so vehemently seems to rally against. Possessive of a seemingly baseless hatred for certain subsets of what he perceives as sexual deviancy. Outspoken, yet duplicitous by the very nature of his stances. The overall picture this paints is that of an angered hypocrite, unendowed with any particular degree of intelligence - while his drive to protect his nation may serve to lend him a streak of respectability, it does little to alleviate his social backwardness and oft nonsensical stances.

Dictator-backed dedication to absolute civil freedoms, ultrabureaucratic pseudo-socialism and heavily-armed neutrality. Fueled by PMT*/FanT nanopunk schizotech, eldritch red tape and snazzy neo-cold war aesthetics on a broken continent.

Factbooks are currently in the middle of a Big™ Rewrite™, almost everything's out of date and ugly. Don't read them.

It may affect my trades in the Caribbean, if whatever his plans are revealed and screw up the black market if that big thing occurred.
