"I would imagine the two of us would have plenty of common ground if we were to get down to - Not to mention the fact that is hard not to be impressed by Mr. Sarasti. To go from a war refugee to a world leader takes a helluva lot of courage and smarts that most men simply don't have. You've got to applaud him for that. Unfortunately, I can't in good faith abide such blatantly imperialist campaigns of expansion, carried out under the red flag or otherwise. No, my friend, true liberation isn't something that can be handed down by mighty empires... it must come from within."

Ithallians are the definition of unconquerable. They are bound by a brotherhood that can only be forged in a war, for Ithallians, all of them, know the cost of freedom. As long as you respect them and are faithful in your dealings with them, Ithallians will treat you like a member of that family. If not...they don't tend to leave survivors...

"I worry about his attempts to integrate religious values into education. Children should always be taught a view of the world that is as objective as possible, and free of such influence. Additionally, we'll be keeping a close watch on the way sexual minorities are treated in Tarvelia. While it is respectable to uphold the traditional family, the persecution of the LGBT community is unacceptable, and tolerating such discrimination is beneath the dignity of any civilized society."

An alternate history version of China in which the alliance between the Kuomintang and the Communist Party never broke down, eventually resulting in a federalized, democratic China. Though one of the world's strongest economies and an emerging superpower, China continues to suffer from high rates of income inequality, an overreaching and sometimes corrupt government, and cultural issues that continue to persist despite the efforts of many reformers over the decades. Most factbooks are still an active WIP.

"The size of President Mei's mandate is astonishing by the standards of our relatively small country - she must surely have won hundreds of millions of votes - and so far she is fulfilling that mandate adeptly. I greatly admire her work in pursuing friendship and cooperation with many nations that could have once been considered China's adversaries: India, Russia, Japan, Korea, and the United States. President Mei's expansion of the high-speed rail network is sure to revolutionize Chinese life as well, and I particularly admire her Lù Mèng initiative to promote a more ecologically sustainable society. I have every reason to believe that she will work as hard as she can to meet the great promise that she has made. I also know a pair of twins who'd love to watch movies and play chess and table tennis with her, although they probably ought to wait until the President has gotten a chance to know all of us here in Nanji a little better."

"A prince? My, how very haughty. The days when nobility actually meant anything are something of a distant dream here... and in truth, I see little substance to the claim even in this case, so far-removed from our merry little hellscape. He strikes me as another potential Caesar... though I suppose he is some degree closer to Lanius, the lumbering clod. At least in role. His is a picture painted in stark, harsh colours - a man of ruthless action, and of personal principle. Whether or not said principle has validity to it is something for history to decide. If I'm honest, I'd probably shoot him if I had the chance. Nothing personal - I simply find it easier to remove men with ambition before we come to work at cross purposes."

Kabzeel, meaning "God's Gathering" in hebrew, is a *federal, dominant-party, socialist(non-marxist)constitutional monarchy* with a rich Jewish heritage dating back to it's creation in 845 CE. Today, it spans almost the entirety of Eastern Europe and is the largest predominately Jewish and female-led state in the world as it follows the doctrine of "*Royal Socialism*", a paternalistic conservative ideology with an emphasis on socialization, social ownership, and

conservative feminism. Its relationship with Israel is noticeably rocky, but this is due to the ongoing complications between Kabzeelian and Israeli Zionism.

 Opinion on the Paramount
 Status: Not Classified, for public's eye, if necessary

So, he is the combination of all of the Octavian kings and leader, for one goal - to make Octavia a galactic superpower? Huh, that's a herculean task, even with those... abilities of his.

His personal life... Him being created as basically a fancy history textbook for children which were apathetic about history is both funny, and a bit sad at the same time. Yeah, mistakes always happen, but some matter more than others - like that one programmer removing all safeguards of Paramount gaining sentence. Of course it would happen - if you put the consciousness of all the previous leaders in a machine, surely it would think that it would need to restore its rightful rule, as the old leaders technically would no longer be "dead"!

As for his rise to power... Yup, purging the oligarchy and becoming the sole leader - this tactic is as old as time itself. Him being more authoritarian and rolling back various freedoms isn't bad, but the assimilation of organic races is - we don't love xenos too much, but being on the same chopping block can make some... strange allies. Honestly, he reminds me of Aykhan and RBHU-3, if they were even more edgy than they already are, and instead of cooperating with humanity, they would decide to assimilate it.

And at last, his defenses. Wow, his arsenal for personal protection is indeed big - arm blades, mini-cannons, rockets, enhanced reaction speed and strength, etc. He also has back up bodies in that slim case if someone would still manage to overpower or trick him - it indeed seems that you have a lot of reasons to be afraid for your life, because no normal person or leader would need to go to such excesses for the protection of their own life. And about that screaming and yelling from the Imperial dwelling... Let's not even talk about it.
