What this thing is:

A nation obsessed with technology and progress populated by various types of mad and villainous scientists. They're not evil, of course, it's just the aesthetics of it. Well, some of them aren't scientists either - those less academically talented generally find their calling assisting their ~~master~~ employer with their scientific endeavours (hump or other physical deformity not mandatory).

Wait a second we're only on post 4968 how did we get to 1813? Let's get back to Monkey 5033.

5033 also didn't hear Madison's pleas and was burnt to a crisp.
