Monkey 1989 was swimming in the ocean when some big-ass ship spilled oil everywhere. Unfortunately, he picked a poor time to accidentally gulp some "water", resulting in his lungs being filled with crude oil.

Jebslund is a nation of kerbals ruled by Emperor Jebediah Kerman. We reject tyranny, believing that rights should be protected, though we also believe said rights end where the rights of others begin.
Shockingly, we *do* use NS stats, with the exception of lifespan.

Also, it's not that hard to kill the right monkey, AN was correct cuz someone skipped, but seriously, just count.
