A small, forested, secular, crypto-post-left libertarian market socialist, Germanic, mixed postmodern/formicapunk-esque nation in NW Europe with a quasi-accelerationist foreign policy and a population of around 600,000

Nice, very nice, boring, word salad shite, meh there's already too many Germanic and European NSes around IMO, more word salad could just say retroaesthetic PMT, Europe boring, and accelerationism very stinky.

I didn't know that was a distinct term, I meant it in opposition or something to the civic American religion and more multireligious aspects that the RL US has.
