Chickennaise

Sons of Liberty - On 2121 in the Commonwealth of Columbia: Finance has become consolidated, people escape to virtual realms for the perfect world, parasocial relationships with machines forms, eugenics has returned and algorithms shapes every part of human perspective in an America stripped of its identity by their European overlords. However, a few bands of patriots have taken upon themselves to restore Americana idealism in an age of ironic cynicism after seizing Earth's last remaining nukes. Trying to make them remember America and casting a sword of Damocles over Europe from the oil rigs and bunkers scattered throughout whilst engaged in a memetic warfare over ideals.

This nation is dedicated to the brave patriots of America
