I'm not listening to techno, not German industrial, not metal or pop or hardcore D&B... I'm listening to military radio chatter.

[This](#) eerie ass song from a game trailer. Though, I think the song is awesome. Also, that game is looking pretty awesome to me. I think it's funny that the song is apparently originally a very happy Irish pirate song, or something along those lines.

I know right? It's awesome though. Call me whatever you want, but I have this thing for liking creepy songs sang by kids, or just mellow songs sang by little kids.

Like [this](#) song for example. This is one of my favorite songs by a little kid. I think she has a really good voice for her age, and does a great job.

Infected Mushroom-U R So Fucked.

Very odd song. Kinda random in with the rest.

I just want you to please note that any knowledge I show throughout NS is based off of a 3rd grade education. All this means is that I probably know absolutely nothing about any subject I post about.

Immanu El-Kosmonaut. I know an awful lot of post-rock bands with things like the start of this song in them.

Southern Rise, Black Flag.

Weird. Surprisingly strong instrumental rock considering they're a punk band.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

Florence and the Machine-Breath Of Life.

Well, one thing useful about the Spotify Snow White and the Huntsman advertisement. Otherwise I could care less about the movie.
